Summery

As a forward-thinking and versatile individual, I am currently honing my skills as a Full Stack Web Developer with a focus on MongoDB, Express, React, and Node.js through comprehensive studies at Entri. Simultaneously, I am pursuing advanced studies in Arabic at Calicut University, showcasing my commitment to continuous learning and diverse knowledge base. Armed with a Bachelor's degree in English from Calicut University and a solid foundation in humanities, I bring a unique perspective to web design, blending creative expression with technical proficiency. My objective is to secure a challenging position as a web designer, where I can leverage my evolving full-stack development skills and my passion for design to craft visually stunning and functionally robust websites. Eager to contribute my multidisciplinary expertise to innovative projects, I am dedicated to delivering compelling and user-centric digital experiences

Projects

- **Weather app**
  - Developed a responsive weather application using React.js.
  - Utilized React Hooks such as useState and useEffect for managing state and handling side effects
  - Integrated Axios library to fetch weather data from a third-party.
  - Implemented dynamic rendering of weather information based on user input or location selection.
  - Enhanced user experience by incorporating CSS for styling and creating a visually appealing interface.
- **Memory game**
  - Developed a dynamic, responsive UI using React for real-time card flipping and matching.
  - Managed game state with React, ensuring smooth gameplay and preventing multiple card flips simultaneously..
  - Implemented logic to check and handle matched pairs, enhancing user experience with visual feedback.
  - Integrated SweetAlert for success notifications, providing immediate and visually appealing user feedback.
  - Utilized JavaScript (ES6+), React, and CSS, showcasing proficiency in modern web development practices.
  - Implemented automatic game refresh and random card positions at the start of each game, ensuring a new experience every time.

Certifications and Licenses

- Build a free website using WordPress (coursera)
- Graphic designing Bootcamp (Lets Upgrade)
